**Comparison of Pre-test & Post-test score among participants of CNE on OBE**

	Score	Level of knowledge on OBE	Pre-test		Post-test	
			No.	%	No.	%
1	1 to 3	Poor	68	61.30	17	15.32
2	4 to 6	Average	43	38.70	85	76.57
3	7 to 10	Good	0	0	9	8.11

The above table shows, there is sharp rise (76.57%) in participant score at the average level in post-test compare to Pre-test level (38.70%) and there is few participants gained the knowledge at good level in post-test (8.11%) compare to pre-test (Zero).

### Conclusion:

Continuing Nursing Education on Outcome Based Education conducted to develop the knowledge and prepare the students for outcome-based learning. The session was effective and the participants gained the understanding about OBE, which is comprehensively reflected in the post-test result. We would continue the process of learning with the great support and guidance of Dr.Prathima, Principal, Sree Vidyanikethan College of Nursing.
